Hi Tom,

As discussed, two new sites are being added to the NPL in March in Puerto Rico: Cabo Rojo and Hormigas. Both will need attorneys assigned to them. Cabo Rojo will be managed through Special Projects (we're doing this as a regional ICI) and Hormigas will stay with Ariel. We're anxious to get a 104(e) out on Cabo Rojo to a party who wasn't as forthcoming during the site assessment work as we would have liked. Denise Zeno is the RPM for Cabo Rojo and can provide the appropriate information to the site attorney, once assigned.

Thanks for the help,

Angela
